

Harvard Forest Data Archive HF252-02

Data File:

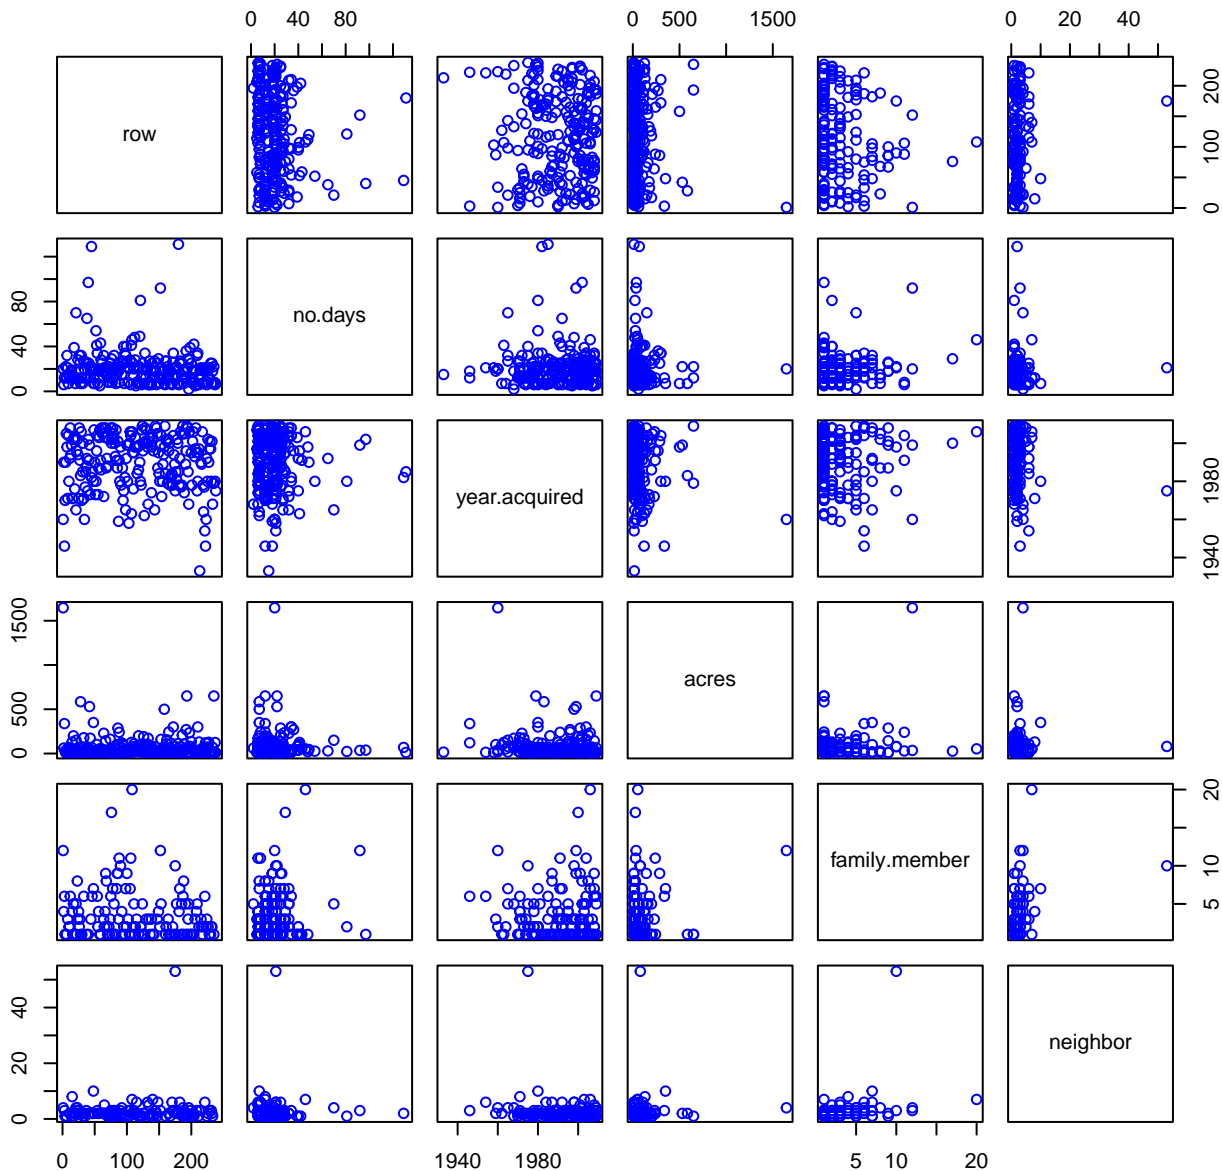

Name = hf252-02-long-survey.csv  
Description = long survey  
Rows = 238 Columns = 46  
MD5 checksum = 6ff1c767838b02b4dd08e9f051ff1b11

Variables:

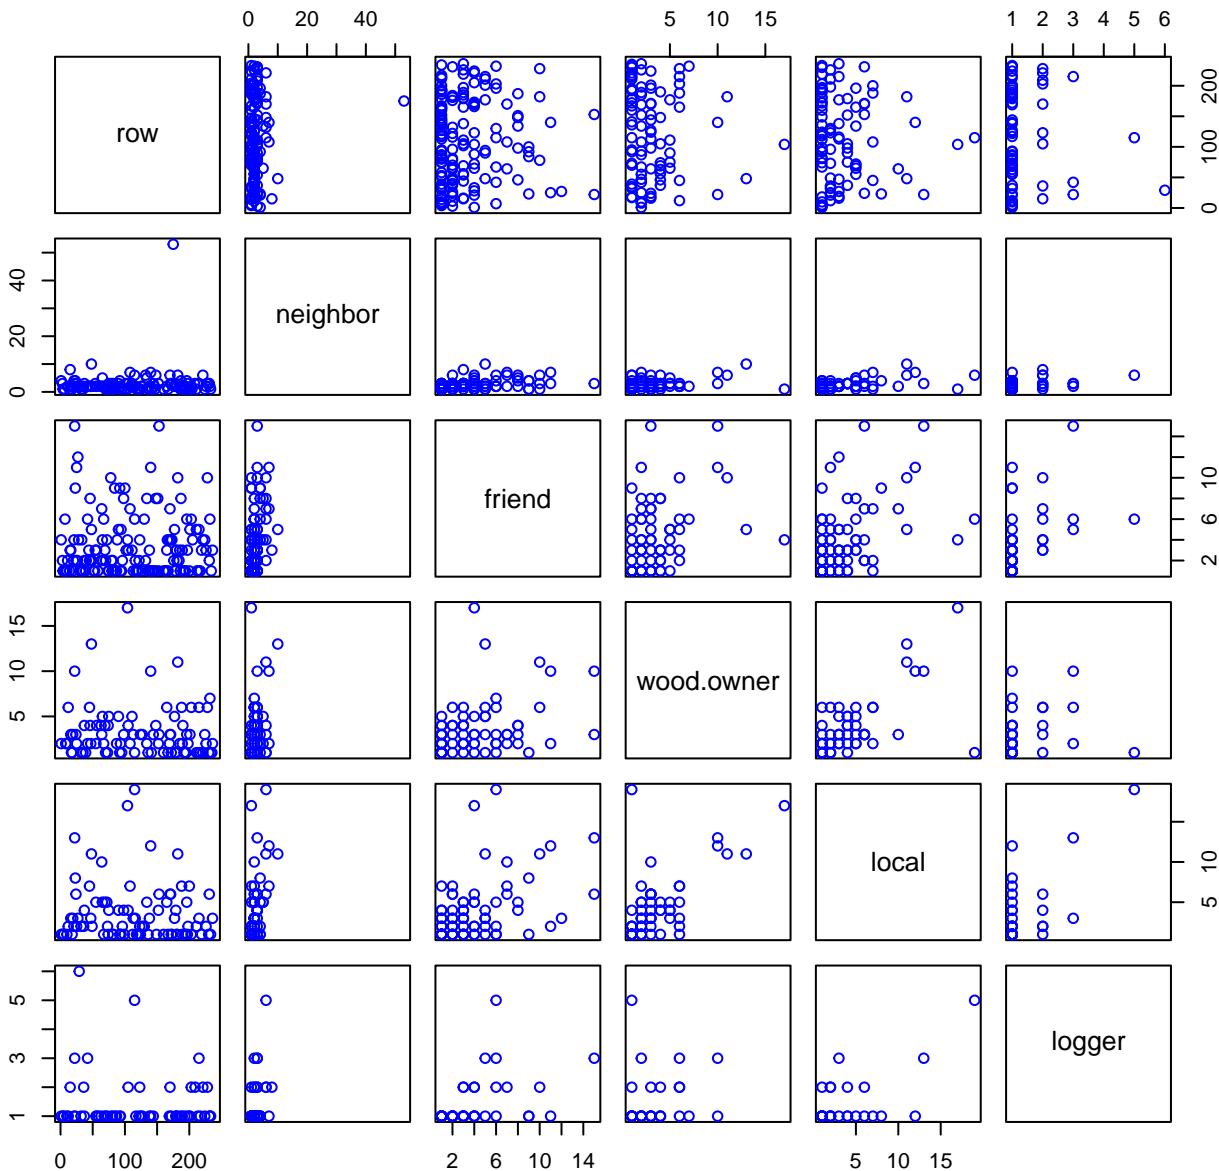

no.days = number of days elapsed between when the survey was sent,  
and when it was  
returned. This is useful for investigating the  
potential of non-response  
bias (number)  
year.acquired = year the property was acquired by the current owner  
acres = number of acres of the property owned by the  
respondent  
(acre)  
family.member = number of family members who have visited your land,  
whose land you have  
visited, or who you have talked to about your land  
in the last two years (number)  
neighbor = number of neighbors who have visited your land, whose  
land you have  
visited, or who you have talked to about your land in  
the last two years (number)  
friend = number of friends who have visited your land, whose land  
you have visited,  
or who you have talked to about your land in the  
last two years (number)  
wood.owner = number of other woodland owners who have visited your  
land, whose land you  
have visited, or who you have talked to about  
your land in the last two  
years (number)  
local = number of local community members who have visited your  
land, whose land  
you have visited, or who you have talked to about  
your land in the last two  
years (number)  
logger = number of logging contractors who have visited your land,  
whose land you  
have visited, or who you have talked to about your land  
in the last two  
years (number)  
priv.forester = number of private foresters who have visited your  
land, whose land you  
have visited, or who you have talked to about  
your land in the last two  
years (number)  
pub.forester = number of public foresters who have visited your  
land, whose land you have  
visited, or who you have talked to about  
your land in the last two years (number)  
conserv.person = number of land trust or conservation group members  
who have visited your  
land, whose land you have visited, or who you  
have talked to about your land in the last two  
years (number)  
year.born = year of respondent's birth

Variable	Min	Median	Mean	Max	NAs
no.days	2.000	18.000	20.433	131.000	0
