Data File:

Name = hf369-02-nsc.csv

Description = nonstructural carbohydrates

Rows = 360 Columns = 13

MD5 checksum = 53564bf29ef81265aecde8100ebf205e

Variables:

weight.mg = sample weight (milligram)

sugar.perc.dw = sugars in percent dry weight (dimensionless)

starch.perc.dw = starch in percent dry weight (dimensionless)

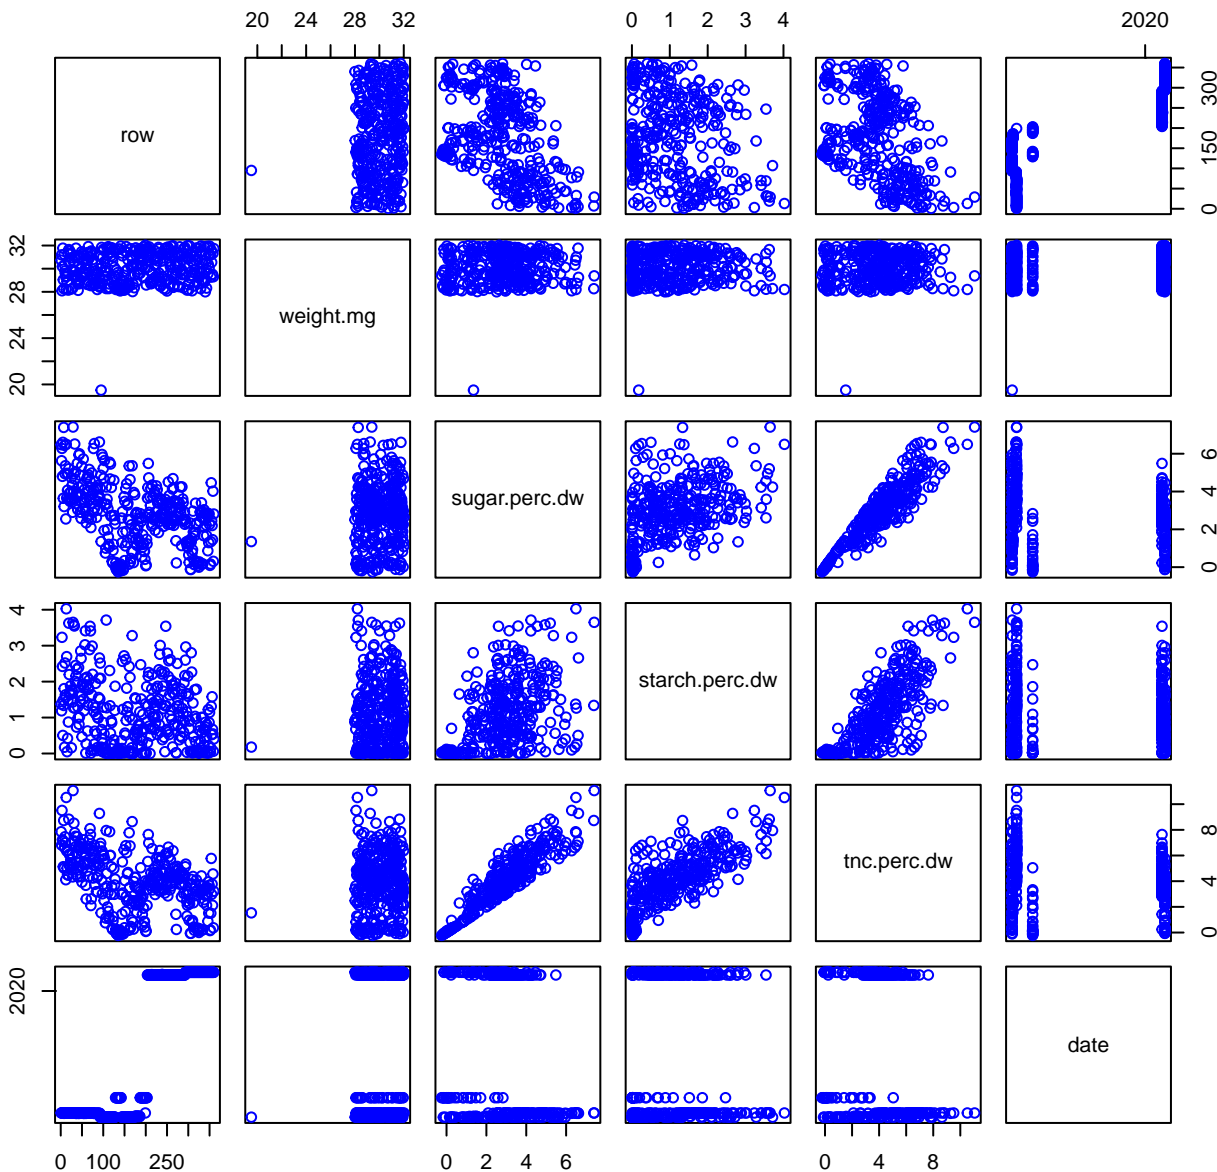

tnc.perc.dw = total nonstructural carbohydrates (sugars and
starches) in percent dry
weight (dimensionless)

date = date that the sample was collected in the field

year = year that the sample was collected in the field
