

Harvard Forest Data Archive HF013-01

Data File:

Name = hf013-01-forest-acres.csv

Description = forest area

Rows = 28 Columns = 10

MD5 checksum = ced7c40a7df3ea2787f1ca6cb4fed265

Variables:

i..year = year

ma = forest area in acres for Connecticut (acre)

me = forest area in acres for Massachusetts (acre)

nh = forest area in acres for Maine (acre)

ri = forest area in acres for New Hampshire (acre)

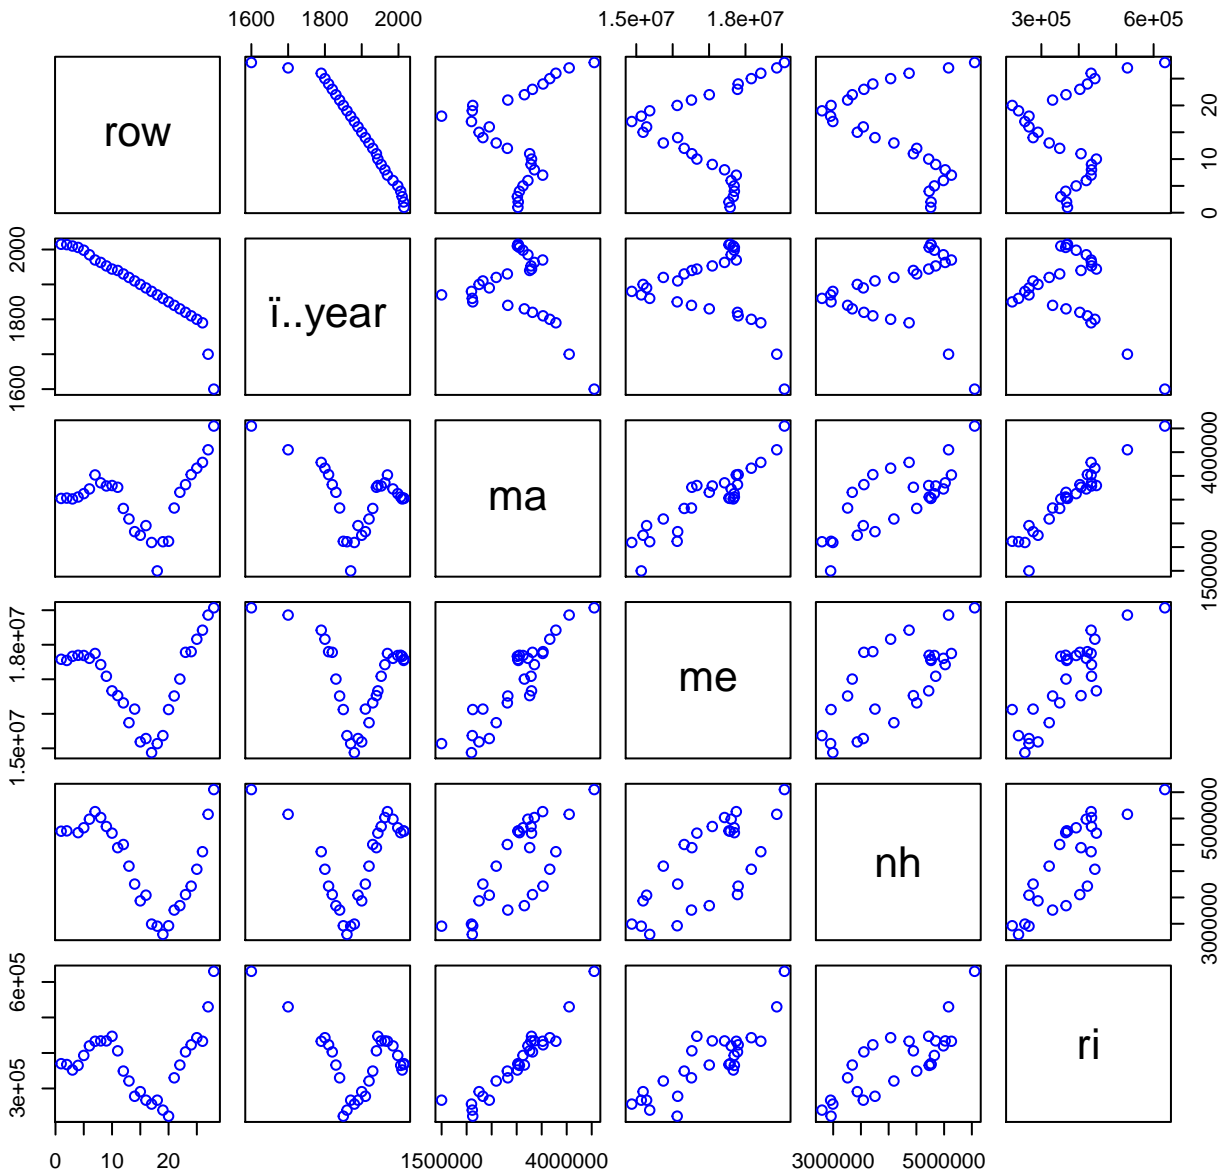

vt = forest area in acres for Rhode Island (acre)

new.english = forest area in acres for Vermont (acre)

source = forest area in acres for New England (acre)

Variable	Min	Median	Mean	Max	NAs
i..year	1600.000	1905.000	1892.786	2015.000	0
ma	1499000	3090500	3011675	4550000	0
me	14876000	17256500	16965107	19070000	0
nh	2798000	4369000	4154830	5550000	1
ri	222000.000	368600.000	373900.000	630000.000	0
vt	2188000	3730000	3693036	5750000	0
new.england	23374000	30484500	29699244	38560000	0
source	1.000	1.000	2.929	10.000	0
